About This Report

This report compiles data from 6 federal databases maintained by the Centers for Medicare & Medicaid Services (CMS). It is designed to support families evaluating care options, attorneys conducting discovery, journalists investigating patterns, and regulators monitoring compliance. All data is publicly available and independently verifiable against original sources.

Assessment

This facility has an overall CMS star rating of 1 out of 5. It has been assessed $315,384 in federal penalties across 5 enforcement actions since 2023. It reported zero registered nurse hours on 11 days (12.0% of Q3 2025), a potential violation of 42 CFR §483.35. State inspectors documented 8 instances of immediate jeopardy and 3 instances of actual harm — conditions posing serious danger to residents. The facility is operated by ZANZIPER FAMILY TRUST, who controls 63 facilities in CMS data averaging 2.3 CMS stars. Total staffing of 2.66 hours per resident per day is 24% below the 3.48 HPRD threshold cited by 18 state Attorneys General.

2. Ownership Portfolio

Owner Name:	**ZANZIPER FAMILY TRUST**
Chain Name:	**SIMCHA HYMAN & NAFTALI ZANZIPER**
Ownership Type:	**For profit - Limited Liability company**

Frequent Ownership Changes: This facility has had 11 different owners in CMS records. Frequent ownership changes can indicate financial instability, operational dysfunction, or a pattern of distressed-asset transactions that disrupt continuity of care.

Weekend Total Drop:	**-12.3%**

Contract Staffing Reliance

Contract/Agency RN Hours (%):	**55.8%**
National Average:	**12%**

Contract or agency staff are temporary workers hired through staffing agencies. High reliance on contract staff reduces continuity of care — temporary nurses are unfamiliar with residents' individual needs, care plans, and histories.

> High Contract Staffing: 55.8% of RN hours are provided by temporary contract staff — above the 20% threshold associated with continuity-of-care concerns in Health Affairs research. National average is 12%. Contract staff lack familiarity with individual residents' care plans.

Staffing Verification

Self-Reported RN Hours:	**0.48 hrs**
Verified RN Hours (Payroll):	**0.14 hrs**
Discrepancy:	**70.2%**

Regulatory Context (42 CFR §483.35): Federal law requires a registered nurse on site for at least 8 consecutive hours per day, 7 days per week. This facility reported zero RN hours on 12.0% of days, which may indicate a violation of this federal requirement.

Staffing Standard Context: In February 2026, 18 state Attorneys General urged CMS to adopt a minimum staffing standard of 3.48 hours per resident per day. This facility provides 2.66 HPRD, which is 24% below the proposed threshold.

Verification Discrepancy: This facility shows a 70.2% discrepancy between self-reported and verified staffing levels, which may warrant further investigation.

Workforce Stability (Turnover)

CMS collects turnover data from Payroll-Based Journal (PBJ) submissions. High turnover is an evidence marker of institutional instability — research consistently links elevated nurse turnover to lower care quality and increased adverse events.

Metric	This Facility	National Avg	Difference
Total Staff Turnover Rate	77.9%	46.4%	**+31.5%**
Registered Nurse (RN) Turnover Rate	92.3%	43.6%	**+48.7%**
Administrator Turnover (count)	2	0.5	**+1.5**

High RN Turnover: At 92.3%, this facility's RN turnover exceeds 60% — a threshold associated with significantly higher rates of adverse events in peer-reviewed literature. High RN turnover disrupts care continuity and institutional knowledge, directly affecting resident safety.

Administrator Turnover: 2 administrators have left this facility — above the national average of 0.5. Frequent leadership changes signal management dysfunction and can impair regulatory compliance.

Staffing Trend Over Time

Staffing has been declining over the past 4 quarters. The table below shows quarterly staffing levels from CMS Payroll-Based Journal data.

Quarter	Total HPRD	RN HPRD	Zero-RN Days	Contract %
Q2 2024	3.21	0.26	0.0%	8.4%
Q3 2024	3.85	0.28	3.3%	11.2%
Q4 2024	3.80	0.23	7.6%	18.3%
Q3 2025	2.66	0.14	12.0%	55.8%

Declining Staffing Trend: Staffing levels are declining — total HPRD dropped from 3.21 (Q2 2024) to 2.66 (Q3 2025). A declining trend suggests the facility is reducing staffing investment over time.

Immediate Jeopardy Context (42 CFR §488.301): Immediate jeopardy citations indicate conditions that have caused, or are likely to cause, serious injury, harm, impairment, or death to a resident. This facility has received 8 such citations.

Complaint-Driven Investigations

Complaint Investigations (3-year window):	**4**
National Average:	**7**

4 complaint-driven investigations indicate a pattern of reported concerns from residents, families, or staff. Each complaint investigation was triggered by a formal complaint filed with the state survey agency.

Note: CMS removed complaint investigation data from Care Compare on 2/25/2026. This count is reconstructed from CMS Health Deficiency inspection records (2017-Dec 2025).

Fire Safety Violations

Life Safety Code Violations:	**11**
National Average:	**14.3**

Life Safety Code violations are cited during separate fire safety inspections conducted under NFPA 101. K-level violations — the most serious — indicate conditions that could impair evacuation or emergency response for a largely non-ambulatory resident population.

5. Financial Penalties

Total Fines:	**$315,384**
Number of Fines:	**5**
Payment Denials:	**3**

Penalty Timeline

Chronological record of all federal penalties:

Date	Amount	Type	Description
Feb 7, 2023	**$158,087**	Fine	Civil monetary penalty
Feb 7, 2023	**$0**	Payment Denial	Payment denial starting Mar 6, 2023 for 3 days
Jun 12, 2024	**$119,327**	Fine	Civil monetary penalty

Jul 10, 2025	**$0**	Payment Denial	Payment denial starting Aug 8, 2025 for 35 days
TOTAL	**$315,384**		

Civil Monetary Penalties (42 CFR §488.438): CMS imposes civil monetary penalties on facilities that fail to meet federal requirements. Penalties range from $1,000 to $21,393 per day depending on severity. This facility has been assessed $315,384 in total penalties.

Payment Denials (42 CFR §488.417): CMS can deny payment for new admissions when facilities are out of compliance. This facility has 3 payment denials on record.

Payment Denial Details

Total Days Under Payment Denial:	**78 days**

A CMS payment denial means the facility's problems were so severe that Medicare stopped paying for new admissions. During a denial period, the facility cannot bill Medicare or Medicaid for any newly admitted patient.

Severe Enforcement Action: CMS issued 3 payment denials against this facility totaling 78 days. This is reserved for facilities with serious, ongoing compliance failures.

6. Clinical Outcomes (Quality Measures)

Quality measures use actual Medicare billing data and clinical outcomes to assess facility performance — readmissions, infections, and successful discharges. These outcomes measure what actually happens to patients, not just what facilities report about their processes.

SNF Quality Reporting Program (QRP) Outcomes

Potentially Preventable Readmissions (PPR)	**Same**
Discharge to Community (DTC)	**Same**
Healthcare-Associated Infections (HAI)	**Same**
Staff COVID Vaccination Rate:	**0.0%**

SNF Value-Based Purchasing (VBP) Performance

The SNF Value-Based Purchasing program adjusts Medicare payment rates based on readmission performance. Lower rankings receive payment reductions; higher-performing facilities receive bonuses.

VBP Ranking (percentile):	**8456**
Readmission Rate:	**18.56%**
Achievement Score:	**6.2**
Improvement Score:	**6.4**

Claims-Based Quality Measures

Claims-based measures use actual Medicare billing data — not facility self-reports — to calculate adjusted rates for rehospitalization and emergency department visits.

Measure	Adjusted Rate	Observed Rate	Expected Rate
Rehospitalized within 30 days	N/A	N/A	N/A
Emergency Room visits	N/A	N/A	N/A
Measure 551	N/A	N/A	N/A
Measure 552	N/A	N/A	N/A

7. Red Flags & Accountability Indicators

Immediate Jeopardy: 8 citations

Immediate jeopardy citations (42 CFR §488.301) indicate the most serious form of noncompliance — conditions that have caused, or are likely to cause, serious injury, harm, impairment, or death.

Actual Harm: 3 citations

Actual harm citations indicate residents were directly and negatively affected by facility practices or conditions.

Total Staffing Below 3.48 HPRD: 2.66 hours

In February 2026, 18 state Attorneys General called 3.48 HPRD the minimum safe staffing level. This facility is 24% below that threshold.

Staffing Verification Gap: 70.2%

Large discrepancies between self-reported and payroll-verified staffing may warrant investigation.

High Financial Penalties: $315,384

Repeated or severe violations resulted in substantial civil monetary penalties.

High Contract Staffing: 55.8%

Research links high contract staffing rates to continuity of care concerns.

Risk Score Component Breakdown

The composite risk score is built from component sub-scores. This breakdown shows which areas drive the overall score, useful for identifying the primary basis for legal or regulatory action.

Composite Risk Score Formula

Weighted composite of multiple factors (scale: 0-100):

Staffing Levels: 30% (verified payroll vs. self-reported, zero-RN days)
Inspection Results: 25% (deficiencies, serious danger, harm citations)
Financial Penalties: 20% (civil monetary penalties, payment denials)
Ownership History: 15% (portfolio performance, ownership changes)
Quality Measures: 10% (CMS star rating components)

Higher scores indicate greater patterns of concern. Thresholds: 0-40 (Low), 40-60 (Moderate), 60+ (High).
