Differences to ask about

Overall star rating

Christwood and Ochsner Medical Center report higher overall star ratings (Christwood 5 of 5; Ochsner Medical Center 5 of 5; Pierremont 1 of 5).

CMS treats a higher overall star as better. Ask what the stars leave out for your family, including distance and the kind of care you need.

Health inspection stars

Ochsner Medical Center reports higher health inspection stars (Christwood 4 of 5; Ochsner Medical Center 5 of 5; Pierremont 1 of 5).

Ask what the last inspection found and what changed afterward.

Staffing stars

Christwood and Ochsner Medical Center report higher staffing stars (Christwood 5 of 5; Ochsner Medical Center 5 of 5; Pierremont 3 of 5).

Ask how nights and weekends are staffed.

Quality-measure stars

Christwood reports higher quality-measure stars (Christwood 3 of 5; Ochsner Medical Center 2 of 5; Pierremont 2 of 5).

Ask which resident outcomes the home is working on.

Health deficiencies

Ochsner Medical Center reports lower health deficiency counts (Christwood 8; Ochsner Medical Center 6; Pierremont 47).

Ask which citations are still open.

Immediate Jeopardy citations

Christwood and Ochsner Medical Center report lower Immediate Jeopardy citation counts (Christwood 0; Ochsner Medical Center 0; Pierremont 6).

Ask what those findings were and what is different on the unit now.

CMS fines

Christwood reports lower reported CMS fines (Christwood \$0; Ochsner Medical Center \$8,186; Pierremont \$422,178).

Ask which penalties were paid and what was corrected.

Registered-nurse hours

Ochsner Medical Center reports higher registered-nurse hours per resident day (Christwood 0.68 HPRD; Ochsner Medical Center 1.82 HPRD; Pierremont 0.26 HPRD).

Ask which shifts have a registered nurse in the building.

Weekend registered-nurse hours

Ochsner Medical Center reports higher weekend registered-nurse hours (Christwood 0.54 HPRD; Ochsner Medical Center 1.24 HPRD; Pierremont 0.19 HPRD).

Ask who covers Saturday and Sunday.

Days with no registered nurse

Ochsner Medical Center reports lower shares of days with no registered-nurse hours (Christwood 53.3%; Ochsner Medical Center 23.9%; Pierremont 60.9%).

Ask how often payroll shows a day with no RN hours, and what you should expect on a tour.

Special Focus Facility

Pierremont reports an active Special Focus Facility designation. Christwood and Ochsner Medical Center do not, in this extract.

Ask what that designation means and what the improvement plan is.

Abuse icon

Pierremont reports a Care Compare abuse icon. Christwood and Ochsner Medical Center do not, in this extract.

Ask what the icon refers to and how allegations are investigated.

Questions for your visit

- 1 How many nurses are on the unit at night and on weekends, and is a registered nurse in the building?
- 2 What did the last health inspection find, and what changed afterward?
- 3 How do you notify family when a resident falls, loses weight, or goes to the hospital, including after hours?
- 4 How do you handle call lights, falls, and pressure injuries?
- 5 Who operates the home day to day, and has ownership changed recently?
- 6 Can we see the unit, meet the nurse on duty, and review a sample care plan?
- 7 What should we verify ourselves on Medicare Care Compare before deciding?

Christwood

- Ask which shifts have a registered nurse in the building, including nights and weekends.

Ochsner Medical Center

- Ask which shifts have a registered nurse in the building, including nights and weekends.

Pierremont

- Ask what the 6 Immediate Jeopardy citations referred to and what is different on the unit now.
- Ask about Special Focus Facility status and the current improvement plan.
- Ask what the Care Compare abuse icon refers to and how the home investigates allegations.
- Ask which penalties are still open and what was corrected after the fines.

Notes and decision

Write what you saw. Distance, the care you need, and the people you met can matter more than a higher star rating.

A decision aid for the homes named here. It does not pick a home or assign a rank.

Stars leave out distance and the kind of care a family needs. Staffing hours are payroll reports. An HHS OIG audit found unsupported RN hours in sampled records. Treat hours as reported, then ask what you will see on a tour.

No live bed availability or private-pay prices. Missing figures say "Not enough comparable information." A small gap is left off rather than called equal.

The Oversight Report is an independent publication of DataLink Clinical LLC. It is not affiliated with or endorsed by CMS or HHS.

Nursing homes cannot pay OversightReports to be included, excluded, or shown differently. A family payment buys this document. It does not change the facts.
