About This Report

This report compiles data from 6 federal databases maintained by the Centers for Medicare & Medicaid Services (CMS). It is designed to support families evaluating care options, attorneys conducting discovery, journalists investigating patterns, and regulators monitoring compliance. All data is publicly available and independently verifiable against original sources.

Verify this facility on Medicare.gov:

Assessment

This facility has an overall CMS star rating of 1 out of 5. It has been assessed \$315,384 in federal penalties across 5 enforcement actions since 2023. It reported zero registered nurse hours on 11 days (12.0% of Q3 2025), which warrants review against 42 CFR §483.35 nursing-services requirements. State inspectors documented 8 instances of immediate jeopardy and 3 instances of actual harm — conditions CMS classifies as involving serious harm or likely serious harm. The facility is operated by ZANZIPER FAMILY TRUST, who controls 63 facilities in CMS data averaging 2.3 CMS stars. Total staffing of 2.66 hours per resident per day is 24% below the 3.48 HPRD threshold cited by 18 state Attorneys General.

2. Ownership Portfolio

Owner Name:	ZANZIPER FAMILY TRUST
Chain Name:	SIMCHA HYMAN & NAFTALI ZANZIPER
Ownership Type:	For profit - Limited Liability company

Frequent Ownership Changes: This facility has had 11 different owners in CMS records. Frequent ownership changes can indicate financial instability, operational dysfunction, or a pattern of distressed-asset transactions that disrupt continuity of care.

Chain-Wide Performance

This facility is part of SIMCHA HYMAN & NAFTALI ZANZIPER, which operates 63 facilities in CMS data. Chain-wide averages are shown below for context.

Chain Average Star Rating:	2.1 / 5
Chain Average Total HPRD:	3.50 hrs
Chain Facilities with Abuse Citations:	14.7%

Portfolio Size:	63 facilities in our dataset
-----------------	-------------------------------------

Portfolio-Wide Performance

This facility is operated by ZANZIPER FAMILY TRUST, who controls 63 facilities nationwide. Portfolio averages: 2.3 CMS stars, \$48,696 in fines per facility, 39.9 risk score.

Lowest-Performing Facilities in Portfolio

TOTAL HPRD

2.66 hrs

Nat'l avg: 3.82 hrs

RN HPRD

0.14 hrs

Nat'l avg: 0.54 hrs

ZERO-RN DAYS

12.0%

Nat'l avg: 8.0%

Staffing Breakdown vs National Benchmarks

Metric	This Facility	National Avg	Difference
Registered Nurse (RN)	0.14 hrs	0.54 hrs	-74%
Licensed Practical Nurse	1.13 hrs	0.79 hrs	43%
Certified Nursing Asst	1.76 hrs	2.18 hrs	-19%
Total Nursing HPRD	2.66 hrs	3.82 hrs	-30%
Zero-RN Day %	12.0%	8%	4.0%
Contract Staffing %	55.8%	12%	43.8%
CMS Stars (Staffing)	N/A/5	N/A	N/A
CMS Stars (Overall)	1/5	3.2/5	-2.2

Average Census:

78.8

Weekend vs. Weekday Staffing

Weekday Total HPRD:	2.66 hrs
Weekend Total HPRD:	2.99 hrs
Weekday RN HPRD:	0.14 hrs
Weekend RN HPRD:	0.20 hrs
Weekend Total Drop:	-12.3%

Contract Staffing Reliance

Contract/Agency RN Hours (%):	55.8%
National Average:	12%

Contract or agency staff are temporary workers hired through staffing agencies. High reliance on contract staff reduces continuity of care — temporary nurses are unfamiliar with residents' individual needs, care plans, and histories.

High Contract Staffing: 55.8% of RN hours are provided by temporary contract staff — above this report's 20% review threshold for continuity-of-care concerns. National average is 12%. Contract staff lack familiarity with individual residents' care plans.

Staffing Verification

Self-Reported RN Hours:	0.48 hrs
Verified RN Hours (Payroll):	0.14 hrs
Discrepancy:	70.2%

Regulatory Context (42 CFR §483.35): Federal law requires a registered nurse on site for at least 8 consecutive hours per day, 7 days per week. This facility reported zero RN hours on 12.0% of days, which may indicate a reporting or compliance issue.

Staffing Standard Context: In February 2026, 18 state Attorneys General urged CMS to adopt a minimum staffing standard of 3.48 hours per resident per day. This facility provides 2.66 HPRD, which is 24% below the proposed threshold.

Verification Discrepancy: This facility shows a 70.2% discrepancy between self-reported and verified staffing levels, which may warrant further investigation.

Workforce Stability (Turnover)

CMS collects turnover data from Payroll-Based Journal (PBJ) submissions. High turnover is an evidence marker of institutional instability — research consistently links elevated nurse turnover to lower care quality and increased adverse events.

Metric	This Facility	National Avg	Difference
Total Staff Turnover Rate	77.9%	46.4%	+31.5%
Registered Nurse (RN) Turnover Rate	92.3%	43.6%	+48.7%
Administrator Turnover (count)	2	0.5	+1.5

High RN Turnover: At 92.3%, this facility's RN turnover exceeds 60% — above this report's review threshold for workforce instability. High RN turnover can disrupt care continuity and institutional knowledge.

Administrator Turnover: 2 administrators have left this facility — above the national average of 0.5. Frequent leadership changes can signal leadership instability and complicate regulatory compliance.

Staffing Trend Over Time

Staffing has been declining over the past 4 quarters. The table below shows quarterly staffing levels from CMS Payroll-Based Journal data.

Quarter	Total HPRD	RN HPRD	Zero-RN Days	Contract %
Q2 2024	3.21	0.26	0.0%	8.4%
Q3 2024	3.85	0.28	3.3%	11.2%
Q4 2024	3.80	0.23	7.6%	18.3%
Q3 2025	2.66	0.14	12.0%	55.8%

Declining Staffing Trend: Staffing levels are declining — total HPRD dropped from 3.21 (Q2 2024) to 2.66 (Q3 2025). A declining trend suggests the facility is reducing staffing investment over time.

4. Inspection History

Total Deficiencies:	53
Immediate Jeopardy Citations:	8
Actual Harm Citations:	3
Severity Score:	408.0

Top Deficiency Categories

The most frequently cited problem areas indicate where this facility consistently fails to meet federal standards. Categories reflect the type of care or operational area cited in health deficiency inspections.

Most common: Quality of Life and Care	14 citations
Most common: Resident Rights	7 citations
Most common: Resident Assessment and Care Planning	7 citations

Immediate Jeopardy Context (42 CFR §488.301): Immediate jeopardy citations indicate conditions that have caused, or are likely to cause, serious injury, harm, impairment, or death to a resident. This facility has received 8 such citations.

Complaint-Driven Investigations

Complaint Investigations (3-year window):

4

National Average:

7

4 complaint-driven investigations indicate a pattern of reported concerns from residents, families, or staff. Each complaint investigation was triggered by a formal complaint filed with the state survey agency.

Note: CMS removed complaint investigation data from Care Compare on 2/25/2026. This count is reconstructed from CMS Health Deficiency inspection records (2017-Dec 2025).

Fire Safety Violations

Life Safety Code Violations:	11
National Average:	14.3

Life Safety Code violations are cited during separate fire safety inspections conducted under NFPA 101. K-level violations — the most serious — indicate conditions that could impair evacuation or emergency response for a largely non-ambulatory resident population.

5. Financial Penalties

Total Fines:	\$315,384
Number of Fines:	5
Payment Denials:	3

Penalty Timeline

Chronological record of all federal penalties:

Date	Amount	Type	Description
Feb 7, 2023	\$158,087	Fine	Civil monetary penalty
Feb 7, 2023	\$0	Payment Denial	Payment denial starting Mar 6, 2023 for 3 days
Jun 12, 2024	\$119,327	Fine	Civil monetary penalty
Jun 12, 2024	\$0	Payment Denial	Payment denial starting Jul 3, 2024 for 40 days
Jul 10, 2025	\$7,435	Fine	Civil monetary penalty
Jul 10, 2025	\$7,435	Fine	Civil monetary penalty
Jul 10, 2025	\$23,100	Fine	Civil monetary penalty
Jul 10, 2025	\$0	Payment Denial	Payment denial starting Aug 8, 2025 for 35 days
TOTAL	\$315,384		

Civil Monetary Penalties (42 CFR §488.438): CMS imposes civil monetary penalties on facilities that fail to meet federal requirements. Penalties range from \$1,000 to \$21,393 per day depending on severity. This facility has been assessed \$315,384 in total penalties.

Payment Denials (42 CFR §488.417): CMS can deny payment for new admissions when facilities are out of compliance. This facility has 3 payment denials on record.

Payment Denial Details

Total Days Under Payment Denial:

78 days

A CMS payment denial means the facility's problems were so severe that Medicare stopped paying for new admissions. During a denial period, the facility cannot bill Medicare or Medicaid for any newly admitted patient.

Severe Enforcement Action: CMS issued 3 payment denials against this facility totaling 78 days. This is reserved for facilities with serious, ongoing compliance failures.

6. Clinical Outcomes (Quality Measures)

Quality measures use actual Medicare billing data and clinical outcomes to assess facility performance — readmissions, infections, and successful discharges. These outcomes measure what actually happens to patients, not just what facilities report about their processes.

SNF Quality Reporting Program (QRP) Outcomes

Potentially Preventable Readmissions (PPR)	Same
Discharge to Community (DTC)	Same
Healthcare-Associated Infections (HAI)	Same
Staff COVID Vaccination Rate:	0.0%

SNF Value-Based Purchasing (VBP) Performance

The SNF Value-Based Purchasing program adjusts Medicare payment rates based on readmission performance. Lower rankings receive payment reductions; higher-performing facilities receive bonuses.

VBP Ranking (percentile):	8456
Readmission Rate:	18.56%
Achievement Score:	6.2
Improvement Score:	6.4

Claims-Based Quality Measures

Claims-based measures use actual Medicare billing data — not facility self-reports — to calculate adjusted rates for rehospitalization and emergency department visits.

Measure	Adjusted Rate	Observed Rate	Expected Rate
Rehospitalized within 30 days	N/A	N/A	N/A
Emergency Room visits	N/A	N/A	N/A
Measure 551	N/A	N/A	N/A
Measure 552	N/A	N/A	N/A

7. Red Flags & Accountability Indicators

Immediate Jeopardy: 8 citations

Immediate jeopardy citations (42 CFR §488.301) indicate the most serious form of noncompliance — conditions that have caused, or are likely to cause, serious injury, harm, impairment, or death.

Actual Harm: 3 citations

Actual harm citations are CMS inspection findings at the actual-harm severity level.

Total Staffing Below 3.48 HPRD: 2.66 hours

In February 2026, 18 state Attorneys General called 3.48 HPRD the minimum safe staffing level. This facility is 24% below that threshold.

Staffing Verification Gap: 70.2%

Large discrepancies between self-reported and payroll-verified staffing may warrant investigation.

High Financial Penalties: \$315,384

CMS records show substantial civil monetary penalties for this facility.

High Contract Staffing: 55.8%

Research links high contract staffing rates to continuity of care concerns.

Risk Score Component Breakdown

The composite risk score is built from component sub-scores. This breakdown shows which areas drive the overall score, useful for identifying the primary basis for legal or regulatory action.

Risk Component	Score (0–100)
Staffing	60.0
Quality Measures	60.0
Ownership	67.0
Financial Penalties	100.0
Fire Safety	23.0
COMPOSITE SCORE	78.8

8. Comparison Context

How This Facility Compares

Key metrics for Accordius Health at Mooresville compared against national averages. Percentile rankings are estimated relative to all 14,713 nursing homes nationwide.

Metric	This Facility	National Avg	Percentile
CMS Stars	1/5	3.2/5	10th
Risk Score	78.8	32.1	10th
Total Staffing HPRD	2.66	3.82	30th
RN Staffing HPRD	0.14	0.54	10th

Metric	This Facility	National Avg	Percentile
Zero-RN Day %	12.0%	8%	30th
Total Deficiencies	53	8.5	10th
Total Fines	\$315,384	\$28,000	10th
Contract Staffing %	55.8%	12%	10th

9. Nearby Alternatives

The following facilities within a reasonable distance have lower risk scores than Accordius Health at Mooresville. This comparison is provided for reference purposes only and does not constitute a recommendation.

Facility	Distance	City	Stars	Risk	HPRD	Fines
Trinity Ridge	32.4 mi	Hickory, NC	5/5	3.4	4.11	\$0
Abernathy Laurels	22.2 mi	Newton, NC	5/5	3.6	3.77	\$0
The Gardens of Taylor Glen Retirement Community	14.3 mi	Concord, NC	4/5	4.5	N/A	\$0
Mountain Vista Health Park	38.7 mi	Denton, NC	5/5	4.8	4.26	\$0
Conover Nursing And Rehabilitation Center	25.8 mi	Conover, NC	4/5	5.3	4.01	\$0

Silas Creek Rehabilitation Center	44.3 mi	Winston Salem, NC	5/5	5.7	3.70	\$0
Willowbrooke Court SC Ctr at Matthews Glen	32.6 mi	Matthews, NC	5/5	5.8	4.77	\$0
NOVANT HEALTH PRESBYTERIAN MEDICAL CENTER-SNU	25.3 mi	CHARLOTTE, NC	5/5	6.2	6.07	\$0

10. Data Sources & Methodology

Data Sources

All data sourced from publicly available federal databases:

CMS Care Compare (Provider Information, Star Ratings)

<https://data.cms.gov/provider-data/>

CMS Payroll-Based Journal (Daily Nurse Staffing through Q3 2025)

<https://data.cms.gov/quality-of-care/payroll-based-journal-daily-nurse-staffing/>

CMS Health Deficiencies (State Survey Inspections 2017-December 2025)

<https://data.cms.gov/provider-data/dataset/r5ix-sfxw>

CMS Penalties (Civil Monetary Penalties, Payment Denials 2023-2025)

<https://data.cms.gov/provider-data/dataset/g6vv-ecav>

CMS Ownership Database (Corporate Structure, January 2026)

<https://data.cms.gov/provider-data/dataset/y2hd-n93e>

CMS HCRIS Cost Reports (FY2024 related-party transactions)

<https://www.cms.gov/Research-Statistics-Data-and-Systems/Downloadable-Public-Use-Files/Cost-Reports>

Composite Risk Score Formula

Weighted composite of multiple factors (scale: 0-100):

Staffing Levels: 30% (verified payroll vs. self-reported, zero-RN days)

Inspection Results: 25% (deficiencies, immediate-jeopardy, harm citations)

Financial Penalties: 20% (civil monetary penalties, payment denials)

Ownership History: 15% (portfolio performance, ownership changes)

Quality Measures: 10% (CMS star rating components)

Higher scores indicate greater patterns of concern. Thresholds: 0-40 (Low), 40-60 (Moderate), 60+ (High).

11. Disclaimer

This report is generated from publicly available federal data and is provided for informational purposes only.

This document does not constitute legal advice, medical advice, or a recommendation for or against any specific facility. Risk scores represent patterns in federal data that may warrant further investigation.

Facilities should be evaluated through personal visits, consultation with healthcare professionals, and review of current inspection reports. Conditions may have changed since data collection.

If you have concerns about a nursing home, contact: Your state survey agency (health department), HHS Office of Inspector General (tips.hhs.gov), or National Eldercare Locator (1-800-677-1116).
